

SPRINT-2

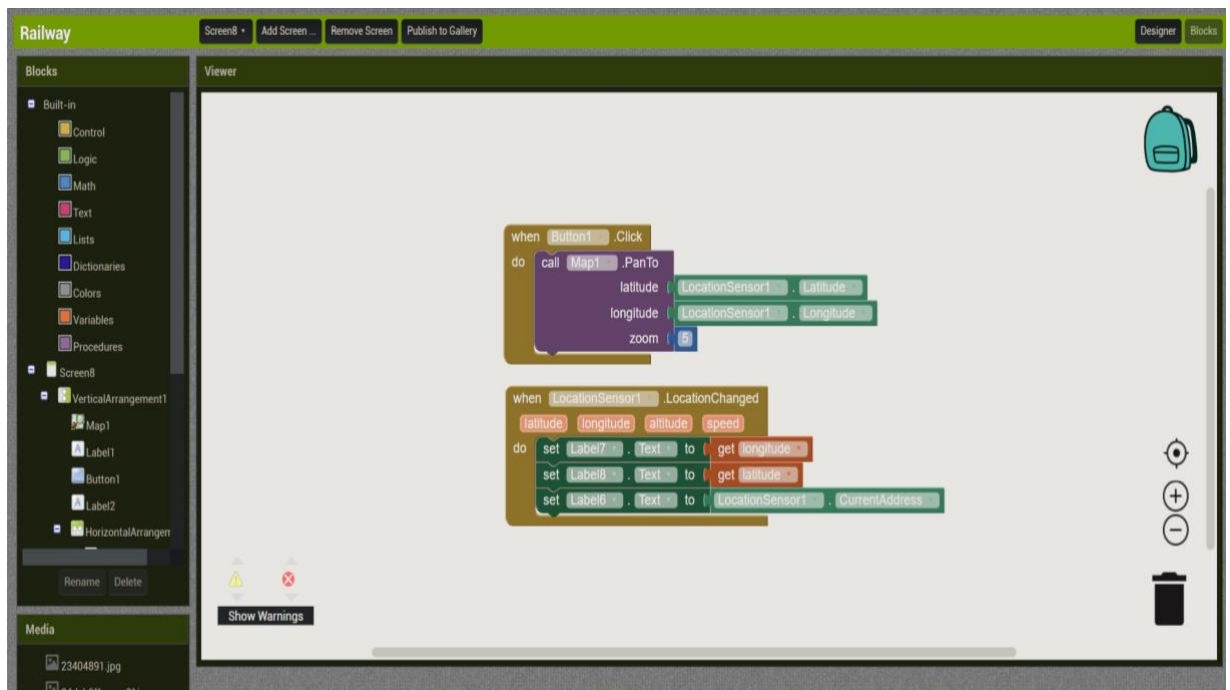

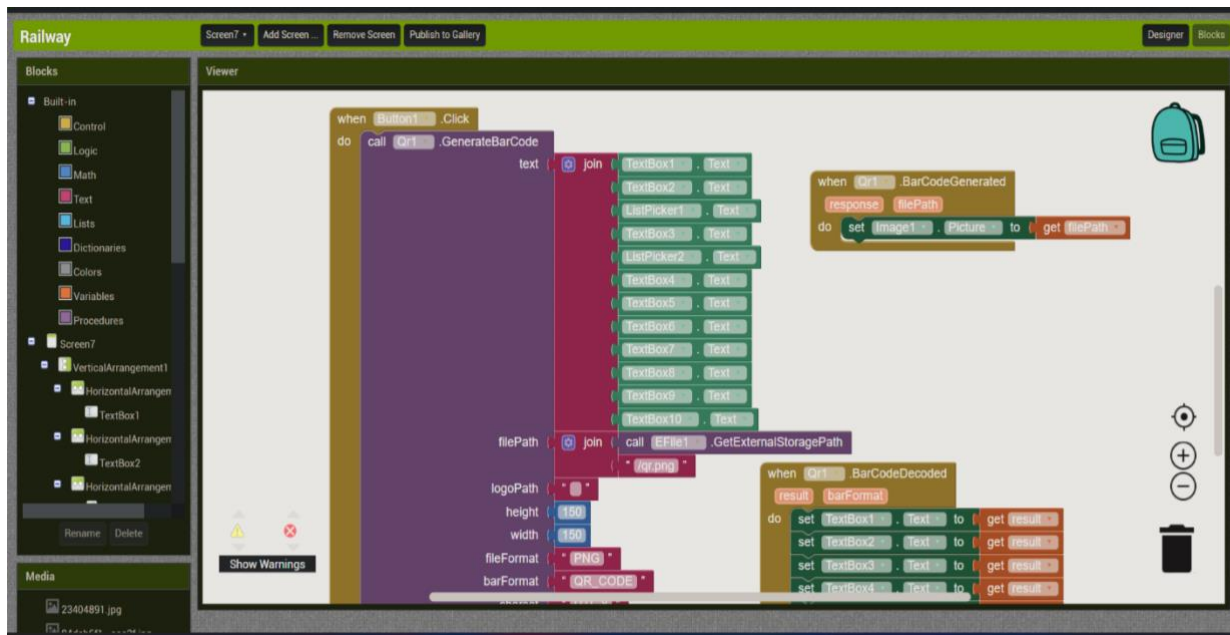

Date	15 November 2022
Team ID	PNT2022TMID29712
Project Name	SMART SOLUTION FOR RAILWAYS

In this delivery we have done front end application like Train selection, Ticket booking, QR code generator, MY location, and other features. In train selection Chennai has been used as default and destination has been selected by the user as Coimbatore, Madurai, vellore, etc.... Ticket will be booked and the QR scanner will be generated. My location will be generated.

This process has been developed by using MIT app inventor.
